

RMT Fibreview Microscope

...optimizing optical fibre performance...

“The smart choice for fibre connector maintenance”

Part Number - 880 9000 15

The Fibreview 2.5” TFT hand held monitor supports the running of the two analogue probes simultaneously, via the menu driven user interface. The magnification of the displayed ferrule end face image is x150 (x172).

In addition the monitor provides a V-Out port to permit direct connection to an external monitor for bench mount application.

Features

- Optical resolution to 1.00µm field of view 250µm microns vertical and 340µm
- Standard 2.5mm PC Tip (1.25mm tips available)
- Rugged 2.5” TFT display, with built in stand and magnetic back plate
- Video capture MPEG capture direct to on board SD Card
- Digital zoom (x135– x250) magnification
- Integrated microphone to record viewed connector location.
- Dual probe inputs

Benefits

- Individual Jpeg images selectable from software suite
- Side clip for hands free focusing
- Lightweight soft carry bag
- USB 2.0 port
- Small, compact an light weight in design
- On screen graticul to define Pass/Fail regions

Contents

- Soft black carry bag
- Monitor
- SD card
- Probe
- 2.50 PC M tip + LC-PC-F tips
- Card reader
- USB cable
- Audio / visual cable
- Headphones
