

F Beam™ - Junior - MIL-DTL -83526 Style

...optimizing optical fibre performance...

A secure link starts with the selection and the specification of a reliable, high performance connector.

Ridgemount has over 20 years experience designing and manufacturing fibre optic connectors and assemblies for a variety of markets.

The **F-Beam 300 Series of Expanded Beam connectors** offers customers a 2 or 4 channel fibre optic connector, ideal for both singlemode and multimode filed deployable harsh environment applications.

Features

- Advanced F-Beam™ Alignment Technology
- Hermaphroditic Design
- 1 to 4 Channel Options
- Designed to meet MIL83526 / MIL20 / MIL21
- Easy Clean—Easy Connect

Benefits

- Excellent Optical Performance—Low IL / High RL
- Easy Connect / Easy Clean
- Inter-matable with other HMA Connectors
- Field Repairable
- Available for a variety of cable sizes and options
- Manufactured in the UK

Applications

- Tactical Military Communication Systems
- Remote Broadcasting Installations
- Remote Antenna Systems
- Oil & Gas Monitoring Systems
